Reading Data into R:

- traditional : read.table (...) ⟹ data.frame

- new : readr package : read_csv ( )
                                    function

                              ⟱
                            tibble
                        (modern data frame)

- writing data to a file
readr :: write_csv (tbl_weight, file = "weight.data.csv")

   ⟶ column separated by "," ⎫
       decimal delimiter : "." ⎬ US - sethgs

       colund sep by ";"
       decimal   : ","
